

North Field Production Sustainability (NFPS) Project (Qatar)

Cable Laid Grommet (IMCA M179) – Lot 1

DATE

July 2023

BACKGROUND

Future Synthetics (Middle East) FZC won a contract to design and manufacture a total of 12 cable laid grommets for the NFPS project. The project had been awarded to the Contractor by QatarEnergy LNG for the Engineering, Procurement, Construction and Installation of various offshore facilities for the extraction and transportation of natural gas, including platforms, supporting and connecting structures, subsea cables and anticorrosion internally cladded pipelines. The project also encompasses the decommissioning of a pipeline and other significant modifications to existing offshore facilities.

Pipe-laying and lifting operations was executed by the DE HE vessel in water depths of approximately 65 meters, leveraging on the Contractor's high-end welding technology for corrosion resistant cladded pipelines to meet stringent quality requirements.

The grommets for Lot 1 were exceptionally long for this large diameter and were produced with our trademark *Engineered Length Control*® for strict length compliance. Proof load testing was conducted on our *KimTest 3000t* horizontal test bed in Malaysia, capable of accommodating these long lengths.

North Field Production Sustainability Project, Qatar Cable Laid Grommets – Lot 1 *Pioneering the Future of Heavy Lifting!*

SCOPE OF SUPPLY:

- 2x Steel Wire Rope Cable Laid Grommets dia 261mm with CGBL 6,633 MT; effective working length 93.6 meters.
- 2x Steel Wire Rope Cable Laid Grommets dia 261mm with CGBL 6,633 MT; effective working length 83.1 meters.
- 1x Steel Wire Rope Cable Laid Grommet dia 228mm with CGBL 4,794 MT; effective working length 72.0 meters.
- 1x Steel Wire Rope Cable Laid Grommet dia 228mm with CGBL 4,794 MT; effective working length 71.1 meters.
- 1x Steel Wire Rope Cable Laid Grommet dia 228mm with CGBL 4,794 MT; effective working length 68.7 meters.
- 1x Steel Wire Rope Cable Laid Grommet dia 228mm with CGBL 4,794 MT; effective working length 69.8 meters.
- 1x Steel Wire Rope Cable Laid Grommet dia 228mm with CGBL 4,794 MT; effective working length 67.9 meters.
- 1x Steel Wire Rope Cable Laid Grommet dia 228mm with CGBL 4,794 MT; effective working length 70.4 meters.
- 1x Steel Wire Rope Cable Laid Grommet dia 228mm with CGBL 4,794 MT; effective working length 70.2 meters.
- 1x Steel Wire Rope Cable Laid Grommet dia 228mm with CGBL 4,794 MT; effective working length 67.8 meters.

Grommets designed, manufactured and tested in Malaysia by Future Synthetics (Malaysia) Sdn Bhd to IMCA M179. Testing, packaging and loading witnessed by customer selected third party certifying authority.
